 Caravan Industry Association of Australia

Design RV

Designed for Adventure

We are proud to introduce the DesignRV range, built for adventure wherever the road takes you. From smooth highways to winding backroads and everything in between, every DesignRV caravan is designed to deliver comfort, confidence and reliability on every journey.

Our extensive range of models and layouts caters to a wide variety of travel styles — whether you're chasing relaxed coastal escapes, long-distance touring or venturing beyond the blacktop. With DesignRV, adventure isn't defined by where you go, but by the freedom to choose your own path.

Since DesignRV's emergence, we have built and delivered thousands of caravans to travellers right across Australia, earning a reputation as a trusted and respected name in the Australian caravan industry.

When you choose DesignRV, you're not just purchasing a caravan — you're joining a community of travellers who value quality craftsmanship, thoughtful design and the freedom to explore on their terms. We would be proud to build the caravan that supports your adventures, big or small.

DesignRV is proudly Australian owned and built. This commitment reflects our dedication to quality and supports local manufacturing and jobs. The Australian Owned certification is more than a logo — it's a symbol of trust, authenticity and Australian know-how.
